## RECOMMENDATIONS

- ❖ Before using the product, it is important to check the service manual of the vehicle: the drain is carried out according to the manufacturer's requirements.
  - ❖ The product should not be stored at a temperature above 60 °C. Exposure to strong sunlight, extreme cold or high temperature variations must be avoided.
  - ❖ All packages should be protected from bad weather conditions. The drums should be stored horizontally to avoid a possible contamination by water and the damage of the product label.
