

TOTAL EXCELLIUM GASOLINE

TOTAL EXCELLIUM GASOLINE is a premium gasoline blended to meet local specifications, such as EN 228 in the European Union, and enhanced with proprietary Total additives to deliver added properties. Compared to a gasoline not containing these specific additives, these qualities ensure exceptional engine cleanliness and bring a sustainable protection to make it more efficient, more economical and less polluting.

The Total Ecosolutions Advantage

Thanks to its improved properties, TOTAL EXCELLIUM GASOLINE delivers the following benefits as compared to a gasoline not containing the specific additives:

- Performance of the engine maintained over time,
- A reduction in energy consumption of 1,8%* in average,
- A reduction of polluting emissions and CO₂.

The Environmental Performance

On the whole lifecycle:

**Compared to a gasoline not containing the specific additives. Results obtained thanks to a statistical analysis conducted in 2014 by the ALTRAN company from 12,378 gasoline consumption data. Results may vary according to vehicle type.*

External verification

Independent auditor EY has verified that this product was labeled according to the method described in the Total Ecosolutions Guidelines and that the guidelines comply with the principles set out in the ISO 14020 and 14021 standards which govern environmental claims and particularly their accuracy.

- **Label award date:** Octobre 2015 - Guidelines version 4
- **Label renewable date:** December 2018 - Guidelines version 5
- **Label term:** December 2023
- **Geographical scope:** Europe, Turkey, South Africa, New Caledonia, Fiji, Cambodia.

Leveraging innovation to serve continuous improvement, the Total Ecosolutions program involves developing products and services that enable our customers to improve their environmental footprint.
