## COOLANT

OPTIMUM EFFECTIVENESS  
AT ANY TEMPERATURE

Cooling is essential for the performance and the maintenance of Nissan engine systems. The **Nissan Genuine Coolants** were designed to meet the exact specifications of Nissan cooling systems, which other brands of coolants could potentially damage.

The **Nissan Genuine Coolants** are available in package volumes of 1 Lt, 5 Lt and 215 Lt.

## BRAKE FLUID

PERFECTLY MATCHED WITH ALL NISSAN BRAKE SYSTEMS

Designed with a high boiling point most suited for Nissan braking systems, the **Nissan Brake Fluid** performs exceptionally at both high and low temperatures. The fluid's anti-oxidant properties ensure that it remains stable and lasts longer.

The **Nissan Brake Fluid** surpasses several international standards and is usable in other carmakers' braking systems.

NISSAN

# NISSAN GENUINE LUBRICANTS

For over a decade, Nissan and Total have built a global partnership working towards developing state-of-the-art lubricants to maximise the performance of Nissan vehicles.

Our drive to bring out the best in each Nissan vehicle has led to a wide range of innovative genuine oils being produced – engine oil, transmission oil, brake fluid and coolant. Each formula has been precisely calibrated to meet every Nissan's different stringent requirements.

**Feel the difference in all Nissans.**

## TRANSMISSION OIL

SMOOTHER TRANSMISSIONS FOR EVEN SMOOTHER DRIVES

The **Nissan Transmission Lubricant** was developed with a Nissan's specifications in mind. The lubricants, calibrated for peak performance at any temperature, provide complete protection of gears against wear and oxidation to extend transmissions life.

The **Nissan Transmission Lubricants** surpass several international standards and can be used in other carmakers' transmissions.
