THE LIVELIHOOD RESTORATION PROCESS

1. Data Collection through the household Socio-economic survey

The socio-economic status of individuals and households will be determined to assess their needs before relocation

2. Design livelihood programmes
In consultation with other stakeholders, where feasible, livelihood programmes such as the examples in the images below, will be designed to support existing national and district programmes.

A EXAMPLES OF SKILLS ENHANCEMENT PROGRAMS

(i) Carpentry **(ii) Financial Training** **(iii) Tailoring** **(iv) Metal works**

During RAP implementation Programmes will be set-up, monitored & evaluated

B EXAMPLES OF SUSTAINABLE LIVELIHOOD PROGRAMS

(i) Access to clean water **(ii) Improved Crop Yields** **(iii) Livestock Health** **(iv) Access to Energy**
