TotalEnergies, a broad energy company

TotalEnergies produces and markets energies on a global scale: oil and biofuels, natural gas and green gases, renewables and electricity. Our 105,000 employees are committed to energy that is ever more affordable, clean, reliable and accessible to as many people as possible. Active in more than 130 countries, TotalEnergies puts sustainable development in all its dimensions at the heart of its projects and operations to contribute to the well-being of people.

The Special Fluids division of TotalEnergies, a global partner with a local touch

The Special Fluids division of TotalEnergies is a world class producer and marketer of high-purity hydrocarbon fluids. We develop a wide range of customized fluids and solvents tailored to our clients' specific needs. These special fluids are essential in hundreds of specialized applications ranging from paints to drilling muds, printing inks, cosmetics and crop protection.

Our mission is to provide you with exceptional purity and outstanding performance. Our network of dedicated experts in over 70 countries are on hand to meet your company's specific requirements.

Whatever industry you are in, wherever you are located, we are close to you.

100 years
of experience:
unique expertise

150+ fluids
for a wide range
of applications

Products marketed
in **70+** countries

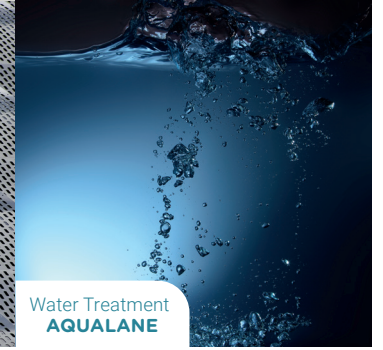

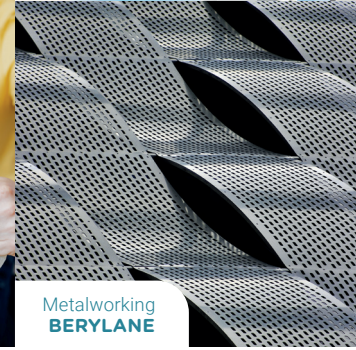

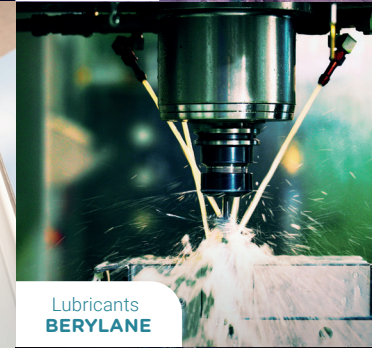

Our Special Fluids offer

High-purity, high-performance products

Our unique expertise allows us to offer our clients highly refined, odorless hydrocarbon fluids, produced in Bayport, Texas using hydro de-aromatization (HDA) technology and narrow-distillation cuts.

Innovation is our main driver to fulfil and anticipate the specific requirements of your industry, from the most extreme to the most delicate. We are constantly seeking new opportunities to work more closely with our customers.

We ensure the regulatory compliance of our products for each application and each country. To offer you the best guarantees, our fluids are tested under the most demanding conditions and comply with the most stringent standards.

Our commitments

Safety, quality and the environment

Safety is one of TotalEnergies' core values. The health and safety aspects of our products are carefully considered at every stage in their design, development and production. Our Bayport plant was built with an excellent safety performance, without a single incident.

Quality: The Special Fluids division of TotalEnergies has had a formal quality procedure since 1990, and its first plant obtained ISO 9001 certification in 2003.

Environment: As a conscious industrial manufacturer, we implement an environmental policy to manage and reduce the impact of our operations in terms of emissions, soil and groundwater quality, odor, waste, noise, visual integration and energy consumption.

Our services

Experts close to you

Our local teams of experts are on hand to provide our customers with the technical and regulatory assistance they need for each and every product. We constantly strive to find the right solutions to the challenges that your company is facing.

Products where and when you need them
