# TOTAL QUARTZ EV-DRIVE MP

## APPLICATIONS

**TOTAL QUARTZ EV-DRIVE MP** is specially designed for **reducers, electric engines and power electronics**. This product fits perfectly with the requirements of each of those components with outstanding performances.

## BENEFITS

Especially formulated for **electric application** to **protect against short-cuts and static electricity**.

Provides **optimal temperature control** even at sharp acceleration and fast charging operation.

Maintains **excellent compatibility** with copper coils and polymer materials used in electric engines.

Shows **excellent anti-wear properties ensuring durability** for gears and rolling bearings rotating at very high speed.

## TECHNICAL PERFORMANCES

	TOTAL QUARTZ EV-DRIVE MP 5.2	TOTAL QUARTZ EV-DRIVE MP 5.0	TOTAL QUARTZ EV-DRIVE MP 3.0	TOTAL QUARTZ EV-DRIVE MP 2.0	Conventional technology
