

# Kromatis<sup>®</sup>

The solution for your  
clear and colored  
mix asphalts

**TotalEnergies**

# Kromatis®

## BRING SOME COLOR INTO YOUR ENVIRONMENT !

**Are you looking for aesthetic solutions for your proposed roadways and public spaces ?**

**Are you looking for solutions to fight the phenomenon of heat islands ?**

**Are you seeking to increase user comfort and safety for everyone ?**

**The Kromatis® range of clear binders reconciles comfort, safety, aesthetics and durability.**

**Mechanical performances on a par with that of black mix asphalts.**

Kromatis® is a polymer-modified clear synthetic binder. The resulting asphalt mix is suitable for use with all types of traffic.

**Make life simpler!**

The asphalt mix is laid under the same conditions as a black mix asphalt. Applying it is therefore very simple and traffic can be resumed on the roadway faster than when laying concrete.

# THE SOLUTION

## FOR YOUR CLEAR AND COLORED MIX ASPHALTS

- 

The Kromatis® range can be used to give emphasis to special areas. It preserves the authenticity of historic town centres (town hall squares, pedestrian roads, garden paths and parks) and of courtyards and individual paths.
- 

Adding pigments creates specific colors so as to improve signage in shared areas, maximising safety for road users.
- 

Clear mix asphalts provide higher levels of brightness in tunnels and help save energy by reducing public lighting requirements.
- 

Kromatis® helps to reduce perceived temperatures in urban areas during periods of very high temperatures

### The Kromatis® range

We can provide the right product for every application.

Applications	Products
colored mix asphalt	Kromatis® 20/30, 35/50, 50/70, 70/100,160/220
Binder for Tack coats	Kromatis® 70/10 EM
Binder for Tack coats	Emulsis Kromatis® ECR 65
Surface dressing	Emulsis Kromatis® ECR 70
Clod micro asphalt	Emulsis Kromatis® ECL 60

### Packaging

Our Customer Service department is on hand to help you find the most suitable logistics solution based on your installation.

Bulk	Bags « Easy-Kromatis »	Drums
Delivery in re-heatable tanks up to 23 T.	500g bags for direct Incorporation into the batch plant. Delivery in 1-tonne pallets	180-liter drums
