

TotalEnergies sustainability strategy is driven by five key pillars – our **Five Sustainability Levers: Energy Consumption, Low-Carbon, Environment, Our Communities, and Care**. These levers shape the Company's ambition to operate responsibly and sustainably across all activities.

At TotalEnergies Marketing Lebanon, these principles are fully embedded in our approach, and this document showcases how the Lebanese affiliate brings them into practice throughout its operations.

Solar Network:

77 locations are now powered by solar panels, including TotalEnergies Terminal, service stations, and B2B client facilities.

Clean Energy Generation:

All our sites have collectively consumed **3,686 MWh** of generated renewable energy in 2025, marking a 52% increase compared to 2024.

Solar Impact at Our Sites:

Solar installations across our Terminal, and company-operated service stations helped prevent **561 tCO₂e** emissions.

Solar Impact at Partners' Sites:

Solar installations at our partners' premises have avoided **2,200 tCO₂e** emissions.

Waste Management:

27 tons of non-dangerous waste were handled responsibly, including **2 tons** of electronic waste that received proper treatment.

Hazardous Waste Treatment:

100% of dangerous waste, including used oil, oily water and sludge, was properly treated.

Water Recycling:

Recycled **~7,500 m³** of water from company-operated wash services, accounting for **20%** of total water consumption at company-operated service stations wash bays.

Air Quality Enhancement:

100% of the generators owned by TotalEnergies Marketing Lebanon and installed at the Terminal and the service stations have been equipped with cyclone filters. These filters significantly reduce air pollution emissions.

Oil Spill Response Drill at Dora Terminal:

Carried out a simulated tanker spill, to test sea and shoreline protection measures at the fisher port of Bourj Hammoud, and demonstrate new response technologies in the presence of key ministries, national authorities, French experts and neighboring terminals.

SAFETY & MOBILITY

VIA Programme Implementation:

Raised awareness on safe mobility, reaching over **10,000** young people and training **140** road safety ambassadors.

Infrastructure Improvement:

Rehabilitated the road condition near the entrance of Collège de la Sainte Famille Française in Fanar, **improving road safety** for more than **60,000** daily commuters.

EDUCATION & YOUTH EMPOWERMENT

TotalEnergies Professeurs Associés Program:

Delivered online courses by TotalEnergies experts to over **100** Lebanese students and young entrepreneurs.

SmartESA Funding:

Contributed to **advancing entrepreneurship** and **innovation** through support to SmartESA.

Job Fairs Participation:

USJ - ESIB AI Forum:

Supported the **"Engineering the future with AI"** International Conference.

CULTURAL & INSTITUTIONAL SUPPORT

Support for the French Institute in Lebanon:

Funded **cultural programming**.

Oum El Nour Assistance:

Donated **diesel** to sustain association operations.

Support:

For the **Lebanese Armed Forces** and **Internal Security Forces**.

CUSTOMER & STAKEHOLDER ENGAGEMENT

Complaint Management:

Effective management system that enables close follow-up and timely handling of **all** commercial and non-commercial complaints.

Activations at Service Stations:

Interacted with more than **10,600** clients at TotalEnergies service stations during special occasions.

Stakeholder Relations:

Held **29** meetings with key stakeholders to maintain collaboration and dialogue.

EMPLOYEE ENGAGEMENT & KNOWLEDGE SHARING

Volunteering:

Employees dedicated **168 hours** of volunteer service to support local communities.

Employee Training & Development:

Employees received a total of **4,667 hours** of training.

HSE Training:

Provided **105 days** of HSE training for external parties, sharing expertise and best practices.

Mental & Physical Well-being:

Dedicated space at HQ allowed employees to complete **36 hours** of yoga, promoting both physical and mental health.

Padel Sessions:

Employees completed **75 hours** of padel practice, promoting teamwork, fitness, and social interaction.

Better Together:

Employees actively participated in **7 Townhall meetings**, fostering open discussions and collaboration.

Internal Celebrations:

Celebrated **7 special occasions** internally to strengthen team connection and foster a positive workplace culture.

Plantation at 12 Service Stations:

Expansion of green spaces to support forecourt assistants in **sourcing fruits and vegetables**.
