Lifting operations

Location _____ Date _____

Company observed _____ Permit No. _____

YES NO N/A

POINTS TO BE CHECKED

- 1** Have the «Pre-job briefing» and «Safety green light» been carried out?
- 2** Is an approved lifting plan available?
- 3** Has the pre-start controls list been completed by the operations team at the beginning of the work?
- 4** Is the signaler/banksman appointed and recognizable?
- 5** Has the lifting appliance operator a training certificate / an authorization document to operate the appliance?
- 6** Is a restricted zone physically established and no one located under or in proximity of the suspended load?
- 7** Is the lifting operation executed according to the lifting drawing / step-by-step procedure? (ex: slings, departure area, arrival area, overflow area)
- 8** Is no pressurized equipment present under or in proximity of the suspended load, except in specific cases addressed in the lifting plan?
- 9** Is the moving load controlled while being lifted?
- 10** Are all personnel involved in the work out of the line of fire and others not directly involved kept out?
