

The benefits offered by

TOTAL ANAC INDUS

provides you a full range of lube oil analysis, to allow you to anticipate and diagnose anomalies in the equipment. This solution is both preventive and corrective.

Thanks to TOTAL ANAC INDUS, you:

- Reduce your operating costs.**
- Anticipate and plan** maintenance operations to perform them at the **best time.**
- Optimize** drain intervals and **extend the lifetime** of your equipment.
- Improve the reliability and performance** of your equipment.

TIG 6, optimized maintenance software for your lubricants

TIG 6 allows you to boost your productivity through efficient maintenance planning.

Built on the expertise of our engineers, TIG 6 offers you to:

- Increase efficiency** and savings of your maintenance management.
- Monitor lubricant parameters and analyses** with a single tool.
- Assert your quality and safety management** through management of lubricant documentation and critical points.

Plan your orders with our Vendor Managed Inventory solution

VMI enables you to:

- **Save costs** of stock shortage and over-stocks.
- **Optimize** and simplify your lubricant **stock management.**
- **Control** your lubricant **consumption.**

A major player

With our production, supply chain and commercial presence in more than 150 countries, we deliver a full range of lubricants.

Support and partnership

Thanks to local technical presence, we provide a high level of service to optimize your Total cost of Ownership.

References & OEMs

Total Lubrificants cooperates with equipment manufacturers to create high-technology products for optimal performance and production of your machinery.

5 good reasons for choosing TOTAL

Innovation & Research

Total invests in biotechnologies to find the most suitable components to reach energy efficiency through formulations designed in our Research Centers.

Quality and environment

Total Lubrificants ISO 9001 certification is the guarantee of a long term commitment to quality. From the initial design stage, our R&D teams seek to develop products that minimize toxicity risks and environmental impact.

STEEL INDUSTRY

Since 1955, Total Lubricants has developed innovative high-performance products and solutions.

In a word of fierce competition within steel industry, any means to decrease operating costs and improve productivity is to be considered.

Total Lubricants is at your side to help you get the best from your machinery and to bring you both the reliability and the competitiveness you are looking for.

Your challenges

- **Reliability of equipment**
Maximize equipment lifecycle and productivity.
- **Severe working conditions**
Mitigate the impact of contamination ie: dust, dirt, water etc... and also varying temperatures.
- **Safety and sustainable production**
Operate in a safe manner while minimizing the impact on the environment.

Our solutions

- **High performance –state-of-art oils and greases**
Optimizing the lifecycle of key assets and equipment while minimize downtime and maintenance costs.
- **Complete lubricant range dedicated for steel industry**
Long term experience handling the impact of high temperature operations with our new gear oil technologies and with CERAN our grease range for steel as well as our fire resistant hydraulic fluids.
- **Products with reduced health and environmental impact**
Complete REACH registered product range. IRONCAST release oil is an environmentally sensitive product. Optimization of lubricant consumption CERAN greases with outstanding water handling capabilities.
