Prosylva Chain

The best choice for your Chainsaw and fast-moving machinery

Prosylva Chain Classic
★ ★ ★

Mainly adapted to the lubrication of mechanical chainsaws installed in wood cutting machinery.

CUSTOMER BENEFITS

- High quality base oil
- High adhesive properties
- Good anti-wear and anti-corrosion performances
- Optimal lubrication until -20 degrees
- Very low pour point (-33 °C)

Prosylva Chain Expert
★ ★ ★ ★

Mainly adapted to the lubrication of manual chainsaws of woodcutters or mechanical chainsaws in wood cutting machinery.

CUSTOMER BENEFITS

- Very high adhesive properties
- Optimal anti wear and anti-corrosion performances thanks to its formulation with reinforced additives
- Reduction of projections
- Lower the oil consumption
- Suitable for any weather conditions

Prosylva Chain Extrem
★ ★ ★ ★ ★

Particularly recommended for high speed machineries and industrial chain conveyors.

CUSTOMER BENEFITS

- Very high adhesive properties
- Reinforced additives formulation against wear
- Improved anti-corrosion properties
- High viscosity for an optimal lubrication even under severe conditions
- Very resistant to high temperatures

Prosylva Chainbio
★ ★ ★ ★

Biodegradable lubricant for chainsaw. Recommended for the lost lubrication of fast-moving machinery: wood chainsaw chains, pruning saws, etc.

CUSTOMER BENEFITS

- Environmental friendly lubricant with a high biodegradability: 89 %
- Rapid biodegradation
- Low toxicity
- Oil throw off reduction
- Guide and chain wear reductions
- Oil consumption reduction

Whatever the season!
