

#SafeDriver

EVERYWHERE, EVERY DAY

I check my vehicle before each trip

I fasten my seatbelt and make sure all passengers do the same

I constantly adapt my speed to road configuration and traffic conditions without ever exceeding the speed limit

I keep a safe distance from the vehicle in front of me and put my foot in front of the brake when approaching a danger

I respect other road users and pay special attention to pedestrians and two-wheelers

I respect the defined driving and resting times and take a break at the first sign of fatigue

+ info on the back

I do not use my phone while driving

I do not drive under the influence of alcohol or drugs

KNOWING HOW TO IDENTIFY SIGNS OF FATIGUE

Take regular breaks: take a walk, open the windows/doors, use break times to make sure you eat properly.

Do not struggle to stay awake: you're fighting a losing battle. At first signs of fatigue, take a break. It's the only way to get rid of drowsiness.
