

NISSAN MOTOR OIL FULLY SYNTHETIC 0W-20 SN/GF-5

Advanced Fuel Economy synthetic technology gasoline oil

USES

- Fully synthetic technology gasoline engine oil
- Recommended for gasoline engines requiring a SAE 0W-20 motor oil
- Fully synthetic technology engine oil that provides outstanding engien protection against sludge, deposits and engine wear.
- This lubricant satisfies the most demanding driving conditions (city, road, motorway...)
- Nissan Motor Oil 0W-20 is recommended for gasoline engines requiring a SAE 0W-20 motor oil. Check manufacturer's service recommendation in vehicles'owner's manual

PERFORMANCES

Nissan Motor Oil 0W-20 satisfies or exceeds the requirements of the following industry specifications:

- API SN
- ILSAC GF-5

CUSTOMER BENEFITS

- Engine protection and cleanliness
- Fuel consumption reduction
- Protection for pollution-control systems
- Nissan Motor Oil 0W-20 provides an outstanding engine protection against wear and deposits and extends the engine's lifetime
- Fuel consumption reduction: Nissan Motor 0W-20 is designed to improve fuel economy and CO2 emissions reduction*
- · Facilitates engine ignition in very cold weather
- Nissan Motor Oil 0W-20 optimises the way in which three-way catalytic converters operate, preventing them from getting damaged

CHARACTERISTICS

	Method	Units	Grade 0W-20
Density at 15 °C	ASTM D1298	Kg/m ³	849
Kinematic viscosity at 40°C	ASTM D445	mm²/s	47.2
Kinematic viscosity at 100 °C	ASTM D445	mm²/s	8.75
Viscosity index	ASTM D2270		167
Pour point	ASTM D97	°C	-42
OC flash point	ASTM D92	°C	222

The values in this table are typical values given as an indication

This lubricant, when used in accordance with our recommendations and for the application for which it is intended, does not constitute a special hazard. A safety data file conforming to the requirements of current EC legislation is available from your local trade consultant.

^{*3.1%} reduction in fuel consumption measured by the official ILSAC test (sequence VI D)
