HIGH-PERFORMANCE
LUBRICANT FOR HEAVY-DUTY AND OFF-ROAD REDUCERS
IN ELECTRIC DRIVETRAIN

TOTAL
Committed to Better Energy

TOTAL RUBIA EV-DRIVE R

APPLICATIONS

TOTAL RUBIA EV-DRIVE R provides specific technology for new generation of electric drivetrain reducers in **heavy-duty and off-road vehicles**.

BENEFITS

Ensures **excellent anti-wear properties** for extended durability of gears and rolling bearings rotating at high speed and/or high torque.

Shows **optimal anti-foaming and air release properties** through the entire lifetime of the vehicles.

Provides **high resistance to oxidation**.

TECHNICAL PERFORMANCES

	TOTAL RUBIA EV-DRIVE R 5.0	Conventional technology
Thermal Management Properties	★★★★	★★
Gear Durability	★★★★★	★★★★
Ageing resistance	★★★★★	★★★
Air release	★★★★	★★★
