

Insecticide

Household insecticide aerosol for flying and crawling insects.

Description

TotalEnergies Insecticide Flying Crawling is an AIK product (All Insects Killer) designed to eliminate instantly the flying insects (flies, mosquitoes...) and crawling insects (cockroaches, ants...). It adds a pleasant peach fragrance to the aerosol effectiveness.

Properties

- Effectiveness has been proved on insects in Africa by certified laboratories providing a 100% mortality rate according to standard norms.
- Immediate "knock-down" effect which neutralizes insects, before "kill" effect killing them definitively.
- Property of persistence protecting against other insect intruders.
- Pleasant peach fragrance.
- No toxicity thanks to a strict selection of active ingredients.
- Formula classified non hazardous for health according to the norm:1999/45/CE.

Instructions for use

- Read scrupulously the informations on the can.
- Product classified extremely inflammable / pressurized container.
- Perishable product. Shelf life: 3 years
