TOTAL RUBIA EV-DRIVE MP

HIGH-PERFORMANCE

MULTI-PURPOSE LUBRICANT FOR HEAVY-DUTY
AND OFF-ROAD ELECTRIC DRIVETRAIN

TOTAL

Committed to Better Energy

TOTAL RUBIA EV-DRIVE MP

APPLICATIONS

TOTAL RUBIA EV-DRIVE MP is specially designed for **reducers, electric engines** and **power electronics** with high power density and high peak torque. This product fits perfectly with the requirements of each of those components with outstanding performances.

BENEFITS

Especially formulated for **electric application** to **protect against short-cuts and static electricity**.

Maintains **excellent compatibility** with **copper coils and polymer materials** used in electric engines.

Provides **optimal temperature control** even at fast charging operation and under severe conditions.

Generates a **protective lubricant layer** ensuring the highest protection and **durability to avoid pitting and scuffing** even at high torque.

TECHNICAL PERFORMANCES

	TOTAL RUBIA EV-DRIVE MP 5.2	TOTAL RUBIA EV-DRIVE MP 5.1	TOTAL RUBIA EV-DRIVE MP 3.0
Thermal Management Properties	★★★★	★★★★★★	★★
Gear Durability	★★★★	★★★★★★	★★★★
Ageing Resistance	★★★★★	★★★★	★★★
Dielectric Properties	★★★★★	★★★★	★★
Specific Materials Compatibility	★★★★	★★★★	★★
