

Wheel Cleaner

Give back all their shine to the rims.

Description

A high-performance product for general automotive use product, Total Wash Wheel Cleaner easily removes dirt and traces accumulated to give back all their shine to the rims.

Product benefits

- Cleans and removes even greasy dust from brake pads
- Suitable for all types of rims (metal, alloy, varnished, painted and hubcaps)

Ease of use

- Shake well before use.
- Spray on the surface to be cleaned, leave to act for a maximum of one minute and rinse thoroughly with clean water.
- Clean one rim at a time.
- On very dirty surfaces, repeat the operation using a silky brush or sponge if necessary.
- Do not use on uncoated polished aluminum rims and on damaged rims.

Effectiveness & results

- Preserves the original shine of the rims
- Prevents new soiling thanks to a protective film

Quality & safety

- Dangerous solution in aqueous phase
- Aggressive product for the skin and the eyes in case of contact or spraying
