Remote tank monitoring system for industrial and automotive applications

VISI  **STOCK**

SEE WHAT'S HAPPENING IN EVERY TANK ACROSS YOUR ENTIRE BUSINESS.

Before we installed the VisioStock from Total devices on our oil tanks, we always had discrepancies in our oil stock levels. Now we are able to track our usage so we don't run out and can reconcile our actual figures to TOTAL's every week, resulting in very few anomalies. We can thoroughly recommend the use of this product as a means of monitoring levels in your tanks."

Nigel Fuller - Walker Farrimond -
Citroen independent dealer from Blackburn

VisioStock from Total can continually monitor every tank in your business. From oils, greases and special products for specialist industries, you'll have full transparency about the performance of your tank population. VisioStock from Total provides in-depth data that you can view anywhere, anytime. So you can stop worrying about tank levels and focus on what matters most, your business.

INDUSTRIES

- › Chemicals
- › Energy
- › Iron and Steel
- › Metallurgy
- › Metal working
- › Automotive
- › Equipment Manufacturers
- › Mines
- › Construction Materials
- › Papermaking
- › Food Processing Industry

BUSINESS BENEFITS

- › Over or underground

LIQUIDS

- › Lubricants
- › Waste oil
- › Additives
- › Many other liquids

(Subject to terms & conditions)

HOW IT WORKS

The sensor in the VisioStock from Total uses ultrasonic pulses to measure the levels across your tank population. A built-in SIM card sends this information to our secure data centre.

This data then flows into your personal online dashboard, which shows your business's current tank levels in a simple format.

You can view your dashboard using any computer, tablet or smartphone. It's easy to check-in, and you can do it from anywhere in the world, at any time of the day or night.

You'll receive regular updates about tank levels and usage across your business, we can update you daily or weekly and in a range of formats – from smartphone to text alerts. The choice is yours.

VISIOSTOCK FROM TOTAL
SENSOR DEVICE

MULTIPLE TANKS

The sensor device works across any number of tanks in your business. We support many tank types and measure virtually any liquid.

MULTIPLE PLATFORMS

Whether you're on the go or in the office, the VisioStock from Total dashboard will keep you up to date with liquid levels across your tank population.

CUSTOMISABLE. EASY TO USE. ANYWHERE.

INSTALLATION AND TECHNICAL SUPPORT

Choose Kingspan Service to professionally install your system. Your warranty will start when our engineer registers and activates your system – rather than when you buy it. You will also be able to benefit from Sudden Drop Alerts* – a critical feature if you want to prevent theft and limit tank damage. After the installation, we offer continual support from our online, telephone and on-site service.

VIEWING YOUR DATA

The VisioStock from Total gives you true peace of mind. Working at a different site, stuck in an airport, need data in a meeting? You can use any web-enabled device, tablet or smartphone to view your personal dashboard. It's quick and easy to check-in. You can do it from anywhere in the world, at any time – day or night. And you can customise your home screen, so the first thing you see is the information you need most.

PLATFORMS

- » iOS and Android app
 - » Email
 - » SMS
 - » Web dashboard
 - » FTP*
 - » API*
- *Advanced features

WEB DASHBOARD

For people who need to see what's happening right now with every tank across your organisation. The web dashboard provides all the level and usage data they need, presented in a clear format that's easy to navigate.

MOBILE APP

For people who need easy access to an overview of up to five tanks on the go. The mobile app provides everything they need to manage the tanks they are responsible for, without revealing data about your entire tank population.
