Subject: European Regulation on Deforestation-free Products (EU) 2023 / 1115 – Information letter

TO WHOM IT MAY CONCERN

The European Regulation on Deforestation-free Products (EUDR) has been in force since 29 June 2023 and its provisions were to be applied by companies from 30 December 2024. The European Union however granted a 12-month additional phasing-in period and, on 4 December 2025, opted instead for a clear extension of the application date for all operators until 30 December 2026.

In a provisional agreement, European authorities further clarified that the required due diligence statement will fall exclusively on the operators who first place a relevant product on the market.

We confirm that this Regulation does not apply to our products.

Sincerely yours,
