

Express Polish

Pleasantly scented, it guarantees a high shine for a paintwork like the first day.

Description

Presented in the form of a milk, TotalEnergies Wash Express Polish is very easy to apply. It removes traces and dirt from the bodywork while facilitating the dusting of surfaces. Its ultra-protective composition forms a water-repellent and anti-corrosive effect.

Product benefits

- A flawless, streak-free finish.
- Long-lasting protection against external aggressions (tar, resin, mosquitoes, acid rain, etc.)
- Can be applied to all types of surfaces: metal, varnished or laminated surfaces.

Ease of use

- Spray directly on the surface to be treated.
- Rub with a soft, lint-free cloth until the product disappears.
- Polish with a finishing microfiber to obtain more shine.
- For small areas, spray directly the product on the cloth.

Effectiveness & results

- Preserves color depth.
- Brilliant shine.

Quality & safety

- Non-hazardous active product: perfumed aqueous emulsion of micro crystalline wax, silicone, paraffinic compound and aliphatic hydrocarbon solvents.

Characteristics

- Product height: 27 cm
- Number of units per box: 12
- Carton dimensions: 30 x 20,7 x 29,2 cm
